Objectives

Dedicated and Motivated Computer Science graduate seeking an entry-level Software Developer position to apply my programming skills and contribute to innovative software solutions.

Personal Projects

Order-Booking
▪ Aug - 2023 – Sep - 2023

Description ▪ On my personal Project, I designed and developed a fully functional e-commerce platform from scratch. This project showcase my expertise in web development, front-end and back-end as well as database design. I curated a diverse product catalog, optimized for user experience with intuitive navigation, detailed product descriptions, and seamless checkout process. This project not only demonstrates my technical skills but also highlights my ability to create a user-friendly and visually appealing e-commerce solution. It serves as a testament to my commitment to excellence in web development and e-commerce design.
